SUMMARY

Software Engineer with extensive experience as co-founder at NucesRate and NucesArchive, specializing in React.js and RESTful APIs. Proficient in database management and UI/UX design, consistently driving projects to successful completion in collaborative settings. Skilled in debugging and version control using Git, delivering high-quality, user-centric applications.

NOTABLE PROJECTS

Full Stack Web Developer, 02/2025 - Current

Nuces Archive

- Developed NucesArchive, a centralized web platform for FAST University students to access past papers, assignments, and academic resources.
- utilized Next.js, Firebase, Tailwind CSS, React, TypeScript, Google Drive
- Project URL: <https://nucesarchive.vercel.app>

Full Stack Web Developer, 07/2024 - 11/2024

Nuces Rate

- A web-app made for reviewing professors of FAST NUCES with moderation with 1000+ active users.
- Utilized Next.js, Supabase, React and TypeScript
- Created custom components, forms, and interfaces for user interactions in React.
- Debugged and resolved issues related to React components.
- Created SQL scripts to maintain database integrity and performance.
- Project URL: <https://nucesrate.vercel.app>

Game Developer, 07/2023 - 11/2023

Tetris 0x88

- Company Overview: A nostalgic game revised in assembly x88 with a lot of new features
- Tested and debugged code to ensure functionality met design requirements.
- Developed game mechanics and core gameplay features for tetris in x88 language.
- Designed puzzles and challenges that would engage players while still being fun and intuitive to solve.
- Project URL: <https://github.com/MaazDev7/TetrisGame-0x88>

Full Stack Web Developer, 02/2023 - 05/2023

Railsync

- Developed open-source web application for railway ticket management.
- Designed efficient database schemas for optimal data storage.
- Utilized HTML (EJS), CSS, JavaScript, Node.js, Express.js, and Microsoft SQL.
- Deployed application on Azure to enhance accessibility.
- Project URL: <https://github.com/MaazDev7/RailSync>

SKILLS

- C++, C
- Python
- JavaScript
- TypeScript
- Next.js
- React.js
- Node.js
- Firebase
- Supabase
- Postgres SQL
- Microsoft SQL Server
- HTML, CSS
- Tailwind CSS
- RESTful APIs
- Database management
- API integration
- UI and UX
- Version control systems: Git, Github
- Debugging

EDUCATION AND TRAINING

Bachelor of Science : BSCS,
Expected in 09/2026
FAST - Lahore
